

Institute for Health Research

HDR program
Support skills

Undergraduate training
Specialist knowledge

Purpose

Through the provision of expertise and training in the design and analysis of complex health research to University of Notre Dame researchers, post-graduate research student supervision and collaboration with other academic and clinical researchers, the IHR seeks to build a vibrant research focus with strong industry links that contributes to improving the health and wellbeing of the community.

Support services

- Research design advice
- Biostatistical & epidemiology
- Supervision of HDR students
- Links to other health researchers & groups

Key outcomes

- Increase biostatistical knowledge at UNDA
- Increase grant funding, publications and HDRs
- Increase collaborative research opportunities
